# icmlp Introduction

In today's interconnected global economy, maritime power plays a pivotal role in shaping the world order, as it is experiencing a wave of transformative changes. The International Conferences on Maritime Logistics and Ports - Malaysia (ICMLP) will be a premier platform, driving positive change, fostering impactful collaborations, and sparking innovations across the global trade, maritime logistics and port industries. The ICMLP acts as a central hub, providing unparalleled opportunities for networking and strategic planning. Internationally renowned presenters from diverse regions will share their expert views on current and future trends in the maritime industry.

With a specific emphasis on exploring innovative solutions and cultivating collaborations, the conference is strategically positioned to shape the future of sustainable maritime practices. Participants are poised to acquire valuable insights, establish meaningful connections, and actively contribute to steering the maritime sector towards a more environmentally conscious future.

The key themes to be explored during the conference, encompasses advancements in clean energy technologies, the strategic role of digitalisation in optimising maritime operations and the development of eco-friendly shipping practices. Furthermore, the conference will explore the adoption of smart vision in the maritime sector, highlighting the critical importance of advanced and versatile education, targeted training, and robust risk management to drive operational excellence, workforce capability, and supply chain resilience.

Through engaging discussions and carefully curated networking opportunities, participants will be able to connect with like-minded professionals, exchange ideas and forge partnerships, paving the path towards a more sustainable and resilient maritime industry, thus making a significant contribution to the global effort for a sustainable future.

# Objectives

- 1. Pragmatic Insights** : Participants will gain valuable insights into current industry trends, challenges, and innovative solutions, enabling them to make informed decisions and shape the future of ports and logistics.
- 2. Networking Opportunities** : The conference provides a unique platform for networking, fostering collaborations and building partnerships across the global ports and logistics community.
- 3. Strategic Roadmaps** : Stakeholders will contribute to the development of a strategic roadmap for the industry, identifying key priorities and action plans to address current and future challenges.

# Scope

- 1. Technological Advancements** : Explore cutting-edge technologies and innovations driving sustainability in maritime operations, from eco-friendly propulsion systems to smart shipping solutions. Discover how advancements in automation, artificial intelligence and renewable energy are reshaping the industry.
- 2. Regulatory Landscape** : Delve into the evolving global regulatory framework for maritime sustainability. Gain a comprehensive understanding of international agreements, environmental standards, and policies influencing the industry and strategies for effective compliance.
- 3. Environmental Impact** : Assess the ecological footprint of maritime activities and discuss strategies for minimising environmental impact. Address challenges related to emissions, waste management, and the protection of marine ecosystems, while identifying sustainable practices for the future.
- 4. Collaborative Partnerships** : Emphasise the importance of collaboration among stakeholders, including government bodies, industry players, and research institutions. Showcase successful partnerships that have driven positive change and explore opportunities for increased cooperation.
- 5. Financial Implications** : Analyse the economic aspects of sustainable maritime practices. Evaluate the financial implications of adopting eco-friendly technologies and discuss investment strategies that align with sustainability goals.
- 6. Human Capital Development** : Focus on the role of education and training in building a skilled workforce for the future of maritime sustainability. Explore initiatives that promote knowledge transfer, skill development and diversity within the industry.

# Presentations

## Track 1

Circular Economy: Shifting Global Trade Dynamics

## Track 2

Smart Vision: Smart Shipping and Logistics: Leveraging AI, IoT, and Blockchain for Operational Excellence

## Track 3

Integrating Risk Management into Maritime Logistics: Strategies for Safety and Security

## Track 4

Eco-Friendly Port Management: Integrating Sustainable Practices Across Port Authorities and Port Operators

## Track 5

Resilience in Maritime Logistics and Ports: Adapting to Uncertainty and Change

## Track 6

Port-Centric Logistics: Streamlining the Global Supply Chain

## Track 7

Securing the Seas: The Role of Law Enforcement in Maritime Logistics and Port Operations

## Track 8

Investing in Human Capital Development : Education & Training as Key Drivers for Sustainable Workforce Development

*\*All presentations are made in English language*

**PARTICIPANT FEES**  
**MYR3,860 | USD950.00 (pax)**

More than 3 pax will get discount  
 (\*MYR3,670/pax)

\*Terms & Conditions Apply \*Payment before 25th August 2025t

- Early bird MYR3,670 | USD834.10
- Group of 3 & above MYR3,422 | USD777.80
- \* Payment before 17th July 2025
- Government Officials & Students MYR3,422 | USD777.80
- Online Participants MYR1,200 | USD272.80

# ICMLP ORGANISERS

**Netherlands  
Maritime  
University  
College**

The **Netherlands Maritime University College (NMUC)**, situated within the maritime nexus of Johor, Malaysia, is a distinguished Dutch-Malaysian institution devoted to advancing maritime education, training, research and consultancy. As one of Malaysia's top 250 universities, NMUC's campus in Johor Bahru thrives within the dynamic Iskandar Malaysia economic region of Johor - Singapore economic zone, offering students a well-equipped environment replete with state-of-the-art learning technologies and facilities conducive to their academic pursuits.

NMUC is committed and focused on producing world-class graduates who make significant societal and community contributions. Our mission emphasises delivering high-quality education and training, research, innovation and leadership to benefit industry stakeholders.

NMUC provides a diverse portfolio of academic programmes, spanning diploma in Ports Management, Shipping Management, Maritime Law and Occupational Safety and Health (OSH), to higher levels such as Bachelor's in OSH and Maritime & Logistics, Master's in Maritime Logistics and Ph.D. in Maritime Supply Chain. Complementing these programmes are professional certifications and consultancy services, fostering a holistic approach to maritime education and specialised projects.

Aligned with our dedication to excellence, NMUC prioritises practical industry exposure alongside soft skills development, interpersonal communication and leadership training, ensuring graduates are adept in diverse professional environments. Through our Centre of Professional Development (CPD), industry experts receive top-tier professional development and training, empowering them to succeed and contribute to industry growth and sustainability.

Our global educational excellence is underscored by partnerships with esteemed maritime institutions worldwide, spanning the Netherlands, United Kingdom, Australia, Egypt, Greece, Turkey and China; amplifying our international presence and cementing our reputation for educational distinction.

Established on July 26, 1982, the **Port Training Institute (PTI)** is affiliated with the prestigious **Arab Academy for Science, Technology & Maritime Transport (AASTMT)**. Governed by a committee comprising the Chairman of Port Authorities and subsidiary companies of The Holding Company for Maritime Land Transport, PTI was instituted with the primary objective of "Training and Upgrading Maritime Sector Personnel." Our unwavering dedication to excellence is demonstrated through a diverse range of courses, including Port Management & Supervision, administered by a team of technical and managerial experts.

**JOHOR TALENT  
DEVELOPMENT  
COUNCIL**

The **Johor Talent Development Council (JTDC)**, launched on 3 November 2024 by Deputy Prime Minister Datuk Seri Dr. Ahmad Zahid Hamidi, is a strategic initiative by the Johor State Government to develop a highly skilled local workforce aligned with the Johor-Singapore Special Economic Zone (JS-SEZ).

As a central platform connecting educational institutions, industries, and job seekers, JTDC focuses on restructuring education and training to meet evolving industry demands, particularly in maritime, logistics, and high-value sectors. It also fosters collaboration between academia and industry to ensure a steady pipeline of talent that supports Johor's vision as a leading regional economic hub.

**The Chartered  
Institute of Logistics  
and Transport**

The **Chartered Institute of Logistics and Transport (CILT)** is a professional body representing the transport and logistics industries worldwide. It is a membership-based organisation with over 30,000 members in over 30 countries. This international body is also known as CILT International to distinguish it from the national councils, sections and branches.

The principal objective of the CILT is "To promote and encourage the art and science of logistics and transport", which it achieves both through its membership and professional qualifications. It provides extensive opportunities for training and learning opportunities with a range of internationally recognised qualifications and courses.

Mega Eve Sdn Bhd is a dynamic and innovative event organizing company specializing in creating unforgettable experiences for every occasion. Whether you are hosting a corporate conference, an elegant wedding, a product launch, a concert or a social gathering, we are committed to bringing your vision to life with precision, creativity and unparalleled professionalism. Founded with a passion for turning ordinary events into extraordinary celebrations, Mega Eve has become a trusted name in the event planning industry. Our team of experienced professionals brings together expertise in event management, design, logistics, and coordination, ensuring that each event is executed flawlessly.

**STC International**, located in Rotterdam, Europe's Maritime Capital, is a collaborative endeavour that embodies a shared vision of excellence aimed at advancing knowledge and skills in the maritime and logistics sector. As an integral part of the STC Group, STC International operates on a global scale, seamlessly bridging the maritime and logistics domains through cutting-edge courses, training and consultancy services. With a team of international experts, our services remain at the forefront of industry trends, grounded in evidence-based methodologies. Upholding standards of excellence in training, education and consultancy, our vision encompasses the provision of sustainable solutions for future-proof models.
