# 5<sup>TH</sup> INDUSTRY FORUM UZBEKISTAN ENERGY MARKET

Tashkent, Uzbekistan, 9 – 10 April 2026

The **UZBEKISTAN ENERGY MARKET FORUM**, now in its fifth edition, is firmly established as the premier meeting point for the region's oil, gas, and energy industry leaders.

## IN APRIL 2026, TASHKENT WILL HOST:

- Senior executives of oil trading, upstream and refining companies
- Government officials and industry regulators from across the region
- Traders, logistics operators and freight forwarders
- Market analysts and pricing agencies
- Upstream, refining and petrochemical specialists
- Banking and financial sector representatives
- Retail network operators
- Major industrial, agricultural and aviation fuel consumers

The event brings together the full spectrum of market participants shaping Central Asia's energy future.

Hosted in one of the great historic crossroads of the Silk Road, the Forum offers an atmosphere of openness and trust where partnerships are forged and strategies take shape.

Participants representatives of oil and gas producers, refineries, major traders, retail networks, airport operators, airlines, key industrial and agricultural consumers of **Uzbekistan**, as well **Kazakhstan, Turkmenistan, Azerbaijan, Turkey and Europe**. Leading analytical and price agencies of the oil and gas industry are engaged in shaping and participating in the programme.

## PAPER, PRESENTATION AND WORKSHOP TOPICS:

### 9 April

#### **UZBEKISTAN AND CENTRAL ASIA ENERGY MARKET FUNDAMENTALS, TRADING AND LOGISTICS**

- **Global and regional oil, gas and products markets:** supply – demand balance, geopolitical trends and risks, sanctions, and leading analyst forecasts
- **Uzbekistan motor fuels market:** demographics, consumption by fuel type (gas, A92, A95, diesel – retail and industrial/agriculture). Standards and regulation. Electric and hybrid vehicle penetration and its impact on consumption volumes and profile. Leading petrol station network operators. Market growth prospects.
- **Key import sources.**
  - **The Russian Federation.** Overview of Russian refining. Export regime for crude and products to Uzbekistan, intergovernmental agreements and export restrictions. Rail logistics challenges.
  - **The Republic of Kazakhstan.** Overview of Kazakhstan's oil refining sector. Majors and mini-refineries. Liberalisation of motor fuel prices and prospects for lifting export restrictions. Exports of fuel oil from Kazakhstan to Uzbekistan. Rail logistics challenges and key border crossing point capacity limits.
  - **Turkmenistan.** Turkmenistan's resource base and refining volumes at the Turkmenbashi and Seydi refineries. Crude supply to the Turkmenbashi refinery.
- **Key industrial and agricultural diesel consumers.** Seasonal demand fluctuations.
- **Fuel for power generation:** gas, fuel oil, domestic supply vs imports.

- **Road construction programmes and bitumen imports.**

- Uzbekistan aviation fuel market and airport consumption profiles. The national airline procurement strategies.

- Overview of Uzbekistan crude and product logistics

#### **RESOURCES BASE, REFINING & PETROCHEMICALS**

##### **The current state and development prospects of Uzbekistan's refining and petrochemical sector:**

- GTL refinery products: market perception and expansion potential
- Fergana Refinery modernisation programme
- Bukhara Refinery: capacity, utilisation and technology outlook
- Innovation and digital transformation in refining and petrochemicals
- Flagship projects and technical solutions in Kazakhstan, Turkmenistan and Azerbaijan

##### **Uzbekistan's upstream resource base:**

- Production decline challenges and prospects for stabilisation and growth
- Producing fields, geology and technology
- Exploration activity and new upstream projects
- Investment presentations and techno-economic case studies

# 5<sup>TH</sup> INDUSTRY FORUM UZBEKISTAN ENERGY MARKET

Tashkent, Uzbekistan, 9 – 10 April 2026

## **10 April – Networking Day**

The second day of the forum will take place in the atmosphere of the ancient history and cultural heritage of Uzbekistan: on land where trade routes, ideas and partnerships have intersected for centuries.

Participants will be able to strengthen business ties, establish new contacts and receive first-hand information on energy consumption, market conditions and regulatory changes.
