## ICS-2 Release 2 - Are you ready?

The new European Union (EU) customs Advance Cargo Information requirement, **Import Control System 2.0 (ICS2)\* Release 2**, which is focusing on airfreight is coming into force from **1 March 2023**.

New requirements will call for some preparation from freight forwarders worldwide exporting to the EU in addition to economic operators within the region.

To support you, FIATA members, on Advanced Cargo Information requirements, FIATA is currently conducting work under AFI Task Force on Safety and Security.

With the implementation date fast approaching, FIATA would like to understand how prepared the industry is for these changes. Please take a couple of minutes to answer this survey so that FIATA can most effectively support you in the implementation.

\*What is ICS-2?

The Import Control System 2 (ICS-2) is the EU's new IT system created to collect data about all goods entering or transported through the European Union (EU), including the non-EU countries Norway and

Switzerland prior to their arrival through an Entry Summary Declaration (ENS). It is effective from 1 March 2023.
