Also

All integrations will be made through the respective freight forwarder's account. For each integration, the according process is detailed below:

- **Maersk and Sealand:** Prior authorization to Cargofive.
- **CMA CGM:** The integration will be made with the ID of the freight forwarder's account. For this, it's necessary to sign an authorization letter from CMA CGM.
- **Evergreen:** The integration will be made through the token generated from the shipping company www.greenxtrade.com
- **Hapag-Lloyd, ONE, and ZIM:** The integration will be made with the credentials access to the account of the freight forwarder.
