

Dear Member,

We would like to inform you that the amendment to the EU Regulation on Deforestation (EUDR) has now been published in the Official Journal of the European Union. The amended Regulation therefore enters into force on 26 December.

This publication formally confirms the targeted revision agreed by the EU co-legislators, including the postponement of the application of the EUDR and the introduction of limited simplification measures.

**The core obligations will apply from 30 December 2026 for medium and large operators and traders, and from 30 June 2027 for micro and small enterprises.**

With the publication in the Official Journal, the legislative process is now closed and the revised timeline is legally confirmed. Members can therefore plan their EUDR implementation work on the basis of these new application dates, while continuing preparatory efforts in line with the amended framework.

The final text of the amended Regulation is available on [EUR-Lex under Regulation \(EU\) 2025/2650](#).
