WHO WE ARE

FIATA is the leading international organization in multimodal freight transport. We advocate trade facilitation policies and promote best practices in the supply chain to speak with a unified voice in support of freight forwarding associations and logistics companies.

As a nongovernmental, membership-based organization, we represent freight forwarders in some 150 countries. Our membership is composed of more than 100 Association Members and almost 6,000 Individual Members, overall representing an industry of 40,000 freight forwarding and logistics firms worldwide.

Founded in 1926, we represent the interests of our members at the global level, particularly vis-à-vis transport organizations, international organizations, and governments.
