

FIATA High-Level Maritime Dialogue

Build Back Better: Shock Resistant Supply Chains

One year on from the first High-Level Maritime Dialogue (HLMD) in 2021, the maritime supply chain has seen profound shifts as it reacts to global uncertainty. FIATA is pleased to bring industry stakeholders back together around a virtual roundtable to discuss practical perspectives and solutions

to build back better towards shock-resistant supply chains for now, and the future.

FIATA is consistently committed to fostering dialogue between all maritime supply chain stakeholders. In this unique dialogue, actors across the supply chain will take stock of the current maritime situation, consider lessons learned, and find areas of collaboration together to improve supply chain resilience for the future.

This virtual HLMD session will be convened on:

7 November, from 14:00 to 16:00 CET

Kindly register for the Zoom event below. After registering, you will receive a confirmation email containing information about joining the webinar.
